

Conflict of Interest Statement

Name:

- a) Complete listing of current institutional affiliations relevant for this work:

Earthworm Foundation

- b) Acknowledgement of all financial contributions to the work being reported:

None

- c) Declaration:

I declare that I have potential conflicts of interests that might be perceived to influence the Task Force's opinions and public statements, as follows:

Earthworm Foundation receives its funding from both public and private sector actors. A list of their members and partners is available here: <https://www.earthworm.org/about-us#target-members>.

Earthworm also undertake project-specific work with other companies, including palm oil plantation companies, to help them develop No Deforestation and No Exploitation policies and implementation plans as well as to investigate and help resolve community disputes. They do not publish this list of clients so as not to imply that these companies are Earthworm Foundation members who have signed up to a particular set of values required for Earthworm Foundation membership.
